

AP Physics Summer Assignment

Text: Cutnell & Johnson Physics, 7th Edition (Wiley)

Read Chapters 1 - 3 and do the following problems:

Pages 21 - 25 # 7, 12, 14, 16, 22, 24, 26, 34, 36, 40, 42, 46

Pages 53 - 57 # 2, 4, 6, 12, 16, 18, 26, 28, 40, 48, 50, 58, 60, 62

Pages 81 - 85 # 18, 20, 26, 28, 34, 40

The problems will be handed in the first day of class and will count as a quiz grade. AP is a college level class and must be treated accordingly. There are expected to know and figure these problems out. If you are unsure, DO NOT SKIP THE PROBLEM (it will be marked wrong), but instead work harder to understand and figure it out. You can email me at arob@rutherfordschools.org.

Thanks and have a great summer

Mr. Robayo
