**RE: Motor Vehicle Reminders**

---

The Rutherford Police Department would like work with the parents and guardians of the Union School students to ensure safety during student drop off and pick up. I have listed several parking regulations as a reminder that must be abided. By parking in violation, one could put a child at an unnecessary risk of injury.

**Parking Regulations:**

- No parking 10 feet from a fire hydrant
- No parking 50 feet from a stop sign
- No parking 25 feet from a crosswalk, or an intersection
- No parking within an intersection
- No parking in front of a driveway
- No parking facing the opposite direction
- No parking in the school bus loading/unloading zones
- No double parking

Please familiarize yourself with these parking regulations. While many curbs in Rutherford are painted yellow as a courtesy to drivers, the curbs do not need to be painted yellow to determine a violation. Please do not rely solely on yellow curbs. It is recommended that parents and guardians arrive early to find parking near the school; otherwise one should find parking legally further down the road.

Lastly, always remember to follow the direction of the school crossing guards, as well as the school staff members in the area. They are stationed there for guidance and to ease the drop off and pick up time periods.

Thank you for your cooperation. Have a safe and happy school year.
