

Dear Parents/Guardians:

A Message from the Elementary School Nurses

Students at the elementary level have had a great start to the school year! It is so exciting to have everyone back in the buildings. Students have done a great job following the guidelines and protocols set in place to promote student safety!

As we move forward, it is important we continue to promote student and community safety by remembering to following:

- Have an extra mask in your child's backpack- we have extras, but sometimes they prefer their own.
- Masks should be the correct size for your child. This means it is tight fitting around the nose and mouth.
- Disposable masks are not to be reworn and reusable cloth masks should be cleaned daily as they can easily become soiled throughout the day.
- Parents/guardians should wear masks when dropping off and picking up children from school and when on school property. Modeling good mask routines helps parents, children and members of the community.

Thank you to all the students, parents and staff for assisting in keeping the community safe so we can continue to experience the joys of being in school.

Erica Farrell, Kindergarten Center School Nurse

Jen Chayka, Lincoln School Nurse

Lynn Mcshane, Washington School Nurse
