## Grade 6 Integrated Arts

### I. Introduction/Overview/Philosophy

This course introduces students to the fundamentals of film and video production. Students engage in both individual and collaborative hands-on experiences as they learn the basics of filmmaking: pre-production, production, and post-production. They develop skills in planning, organization, script writing, interpersonal communication, team building, and media literacy. Students participate in every aspect of video production, from editing to directing on-screen talent. Students produce video products in the form of narrative/dramatic, informational/documentary, promotional/persuasive, and creative/music video.

Experience with and knowledge of the arts is a vital part of a complete education. Education in art, music and drama is an essential part of an academic curriculum for the achievement of growth. ***NEW JERSEY STUDENT LEARNING STANDARDS  
ENGLISH LANGUAGE ARTS*****Grade 6**

The standards define general, cross-disciplinary literacy expectations that must be met for students to be prepared to enter college and workforce training programs ready to succeed. The K–12 grade-specific standards define end-of-year expectations and a cumulative progression designed to enable students to meet college and career readiness expectations no later than the end of high school.

Students advancing through the grades are expected to meet each year’s grade-specific standards, retain or further develop skills and understandings mastered in preceding grades, and work steadily toward meeting the more general expectations described by the standards.
