Parents will learn strategies to help children be successful, motivated readers, including how to:

- Ask engaging questions when reading together
- Play rhyming and word games
- Identify letters and words
- Praise effort and stay calm when reading together

The strategies that will be taught in the workshop have been found to improve young children's reading skills and promote future reading success. Learning about these strategies may also help parents communicate with teachers more easily.

Interested parents who are not available at this time, or would prefer to attend sessions in a language other than English, can request to be added to a future workshop series by pre-registering and indicating their preferred times and language preferences.

For more information, please email: booksmartreaders@gmail.com if you have additional questions.

Once the workshop is full, all interested participants will be added to the waitlist for fall sessions.
